

Dear Hiring Manager,

I am writing to express my interest in the artificial intelligence (AI) internship opportunity at your company. As a second year student in computer science at enseeiht, I have a strong foundation in the principles and technologies of AI. In addition to my academic experience, I have completed several projects in various languages, including Ada and Java, which have helped me to develop my programming skills and technical expertise.

In addition to my technical skills, I have also cultivated strong soft skills through my involvement with the junior business of my school, n7consulting, where I serve as business manager. Our team has consistently ranked as one of the top performers in France, and my role as business manager has taught me valuable skills in leadership and team management. I have also gained valuable interpersonal skills through my involvement with an humanitarian association and my participation in a humanitarian trip to India for six weeks.

I believe that my technical expertise and soft skills make me an ideal candidate for this internship. I am excited to learn and grow as an AI professional, and I am confident that I can make a valuable contribution to your team. Thank you for considering my application. I look forward to discussing this opportunity further.

Sincerely, Clementine Grethen
